Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Docile: 85 head</td><td>Quiet: 70 head Slightly Stirry: 15 head</td><td>Quiet: 85 head</td></tr></table> NARRAWA steers where quiet and easy to handle through the whole yarding and assessment period. Odd calf stirred a little whilst being weighed as this was a new experience for them but on a whole handled the process well. As the photos show I walk through them in a small holding paddock after weighing and they had settled and where docile as we walked through the mob. Assessor Comments	A nice line of vendor bred calves that could be taken out to export weights on grass or put straight into a feed yard. Thier temperament is quite and with the exception of 3 standout calves they are in a very tight weight bracket. 2 steers show old pinkeye scaring in one eye which does not seem to be hindering them at all 1 of the larger steers has a white patch on his belly that can be seen in the photos.
