Assessor Comments

An excellent line of N drop Angus Cows which have been rejoined to Bullseye Angus Bulls, specifically selected on growth and IMF. The entire line are vendor bred from a long-term program of Te Mania genetics, always focusing on growth and IMF. These proven breeders had weaners removed on 06/03 and have remained in excellent condition considering the tougher season. These reliable cows will complement any breeding herd, very quiet and easy to handle, with correct breeding and structure.
