Assessor Comments

AN exceptional line of PTIC angus cows, all preg tested in calf to Cochrane angus bulls, with 5 being AI'ed to Cochran U4 and Texas Top Shelf angus bulls. The vendor is only seeing these cows due to a big heifer portion coming on behind these, otherwise the vendor would continue with these in the breeding herd. All extremely quiet which is a credit to the vendor who has been breeding angus for many years, weaners are regularly sold at the SIlverdale Weaner Sales and most always topping the sale or are sold as feeder steers which are sort after by return feedlot buyers. Cows have been pre treated with Cattle Pro on the day of the assessment to help with any clearing. PLEASE SEE THE AGE BREAKDOWN 5x 2-3 year old 6x 3-4 year old 3x 5 year old 6 x 6 year old 1 x 7 year old
