Assessor Comments	20 - Angus Cows PTIC to Glenavon Angus Bulls. Cows present in healthy forward store to fresh condition. Cows were pregnancy scanned 3/03/26. All cows reared & weaned calves for the past 2 years. The temperament of the cows was a feature, being very quiet to handle throughout the assessment process, testament to their management & handling practices. Sale of cows presents an opportunity to purchase a line of established breeding females, to take on and calve down and retain as replacement breeders or explore possible trade opportunities.
