Assessor Comments	A very good line of mature PTIC Charolais cows with the majority recorded with Charolais Society. Great frame and structure, with 3 red and 5 blue tags. As mentioned Glenlea Beef would be interested in having first option to purchase the male progeny (& females) at a market premium negotiated at weaning. They have had good fresh calves weaned mid-February and continue to put on condition with fresh feed in front of them. They are definitely a good representation of the breed and would not disappoint.
