Assessor Comments	Lovely line of quiet heifers and cows with 11 good young calves at foot. 8 head on first and second calf. For sale due to being out of normal calving window. . Quality genetics on both sides of progeny that shows in spades in these cows and the calves they have produce. Older siblings very sort after for feeder pens and as replacement breeding stock. Joined to high calving ease bulls. 3 cows showing back in calf. Balance have had chance to bull. Not detectable as yet. Would recommend rejoining to guarantee pregnancy. Will grow into exceptional cows, chocked full of quality. Buy with confidence. Highly recommended.
