Assessor Comments	Lovely line of quiet heifers that are preg tested for a spring calving. Would be keep to calve at home however these 18 are out of normal calving window. . Quality genetics on both sides of progeny that shows in spades in these heifers and the calves they will produce. Older siblings very sort after for feeder pens and as replacement breeding stock. Joined to high calving ease bulls. Will grow into exceptional cows, chocked full of quality. Buy with confidence. Highly recommended.
