Assessor Comments	A/c IA & J Coghlan of Eurimbla Shorthorns offer 9 PTIC Heifers as part of their annual draft. The Eurimbla breeding program is based upon producing easy care cattle, backed by extensive performance testing. These females have recently been scanned for fat cover, EMA & have an average IMF of 7.4%. They are PTIC to the low birth weight & calving ease sire Polldale Tycoon, whose fat & marbling figures are in the top 2 percent of the Shorthorn breed. These heifers are 18-19 mths of age, average 518kg curfewed & are predominately large frame relative to their age. They are bred from stud Shorthorn cows with genetics sourced throughout Australia & sired by Royalla Abel and Eurimbla Ricardo. Tallangatta Vets pregnancy tested these heifers on the 13/3/26 & deemed them all to be 14 weeks plus in calf, to commence calving early August. These heifers have been an absolute pleasure to handle, would suit any operator and would complement any breeding operation with their whole lives ahead of them.
