	These heifers were an absolute pleasure to handle and would suit any level of operator		
Handled With	On foot , Vehicles		
Assessor Comments	A/c IA & J Coghlan of Eurimbla Shorthorns offer 12 PTIC Heifers as part of their annual draft. The Eurimbla breeding program is based upon producing easy care cattle, backed by extensive performance testing. These females have recently been scanned for fat cover, EMA & have an average IMF of 7.4%. They are PTIC to the low birthweight & calving ease sire Polldale Tycoon, whose fat & marbling figures are in the top 2 per cent of the Shorthorn breed. These heifers are 18-19 mths of age, average 492kg curfewed & are predominately large frame relative to their age. They are bred from stud Shorthorn cows with genetics sourced throughout Australia & sired by Royalla Abel and Eurimbla Ricardo. Tallangatta Vets pregnancy tested these heifers on the 13/3/26 & deemed them all to be 14 weeks plus in calf, to commence calving early August. These heifers have been an absolute pleasure to handle, would suit any operator and would complement any breeding operation with their whole lives ahead of them.
