Handled With	Heifers were very impressive when it came time to be weighed & assessed. Having been through the race/crush three times in a day (preg testing/drenching/assessing) they had every right to be a bit stubborn/anxious as assessing, but were instead incredibly quiet & well behaved. All stepping on the scales quietly, exiting at a walk, and being very quiet to walk amongst for photos/videos. A real credit to the patience & hard work done at yard weaning & throughout their lives since. Bikes , On foot , Vehicles		
Notable Traits	Traits 5 Head Eye blemish 6 Head Small white splash on flank		
Assessor Comments	Beautiful line of young Angus Heifers with a glittering pedigree! Out of a core breeding herd of the infamous Koojan Hills (Ex Sue Ray) & Yamba Angus (Ex Wanterbadgery Station) Cows, By Lawson & Bongongo Angus Sires, selected for IMF, EMA & those 400 & 600 day weights! Heifers that have not been spoilt, having been a challenging couple of years in the Upper Murray, and grazing a very steep hill of just native pastures - These young girls are conditioned and fit to take on and calve! Out of moderate to large framed breeders, these lovely, quiet young heifers have the genetic reputation to be a very rewarding investment and would be the perfect article to base your foundations breeders around. Their brothers have previously received industry recognition in the Beef Spectacular, placing 7th for eating quality & 4th in the AMPC National Beef carcass comp, class 5, heavy trade grain fed category! All in healthy 2 score condition, No work required, drenched on assessment day with Cydectin Platinum, plus a 5in1 booster - ready to just continue ticking along for the next few weeks leading up to calving, then have all calves hit the ground in a quick single cycle window!
