Assessor Comments	This is a great opportunity to purchase a well Bred line of PTIC wagyu heifers and cows. The cows are all proven breeders with sons that have been sold to feedlots with very good kill data coming back. The 37 first calf heifers are the sister line of the steers recently killed with a marble score averaging over 7. These cows are surplus to requirements and are out of the breeding herd. This line of cows and heifers have good temperament and work very well through the yards, they present in healthy forward store condition. All are in calf to registered Wagyu Bulls with Bull IDs available on request. A vet certificate is available as they were tested by Jordon Stayt of Longreach Vet Services on 1st July.
