Assessor Comments: A good useful line of store to forward store cows and calves. All one line but these cows are not vendor bred. These cows were purchased five months ago as a turnover proposition. The cows provide a good opportunity for the next buyer to fatten both the cow and calf. The cows are doing a great job on their calves as evidenced by the average weight of the calves of 188 kg. There is one cow with a badly capped hip that is breaking through the skin. A handful of cows were mouthed at assessment and their teeth were found to be sound. Please note three day delivery window, cows will be curfewed off water for ease of trucking.
