Assessor Comments

A nice line of predominately medium frame PTIC Angus cows. These cows have not long had calves weaned off them and have recently been Preg tested by certified vet and are roughly 6-8 months back in calf, so fertility shouldn't be an issue. These cows have plenty of life ahead of them and would suit anyone looking to replenish their breeder numbers and get a quick return on investment. These cows are only for sale due to ongoing dry seasonal conditions in the area.
