Heifers and calves were good to handle during the the assessment. An odd cow was unsettled under pressure and in the weighbox but settled soon after returning to the mob.

Handled With Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments A nice line of first calf hereford heifers and calves. Heifers have good calves at foot, sired by Remolea Scripture S038 and range from 3-12 weeks of ago. Buyers please note that one cow has twins at foot. Heifers have not been rejoined and ready for the bull of your choice.
