Assessor Comments	A line of 5-9 year old Station mated Brangus and Brangus cross cows and calves presenting in a healthy store condition. Cows weigh from 484-628kg to average 543kg full at assessment. Cows were very easy to handle throughout the assessment. Calves at foot are 4 months of age and weigh from 143-192kg to average 170kg at assessment, and have been marked 2 weeks ago and vaccinated with 5 in 1 B12. Cows are doing a good job on the calves and would be very suitable to buy to fatten to heavier weights. Cows are only being sold due to dry seasonal conditions. Cows are in a strong store condition and will travel.
