These heifers are bred out of large framed 'Weebollabolla' and 'Yamburgan' blood Shorthorn cows by 'Nampara' Angus bulls. These cattle were purchased from a neighbouring farm as PTIC heifers which have breeding Shorthorns based on 'Weebollabolla' bloodlines for over 50 years, and in the last 10 years 'Yamburgan' blood has been introduced into the herd. These cattle are renowned for their fertility, large frame with wide pins, good temperament, high milk production, and easy doing ability.
