Assessor Comments	A quality line of maiden PTIC Santa heifers out of the renowned Killarney Park herd. These heifers present preg tested in calf to quality Killarney Park Santa bulls. The heifers in this lot are bred utilising top quality Santa genetics from leading QLD Santa studs providing them with genetic backing as well as all the characteristic benefits of years of quality Santa bloodlines and sire selection. All heifers in this lot handled very well through the assessing and preg testing process as well as being very well educated and easy to handle in the paddock environment. This is a rare opportunity to purchase PTIC females out of the Killarney park breeding operation as these heifers would normally be retained in herd. These heifers will not disappoint the successful purchaser as they will be a terrific addition to any breeding operation. Please note in the lot there is 10 heifers with white marking on their underline area as well as 6 heifers sited with old or active buffalo fly bites around the neck and head area this is not detrimental to their health.												
Assessor	Joe Grove (Level 1 Accredited) Phone: 0428 355 599
