Handled With	Bikes , Dogs , On foot , Vehicles					
Assessor Comments	A line of 44 No.5 PTIC Red and Grey Brahman heifers which present a great opportunity to purchase breeders from a well known brahman herd in CQ. These heifers have been rotationally grazing since weaning and are very well educated with dogs and bikes. The NOT brand cattle hold a high reputation for brahman cattle with growth, doing ability and temperament. In this line there are 19 Grey heifers and 23 Red heifers all of which are vet tested incalf to Brahman bulls. As of time of preg test 18 heifers were classed 2-3 months and 26 were 4-6 months incalf. Graded as most medium framed these heifers should mature to medium to large framed cows with the vendors cull cows continuously dressing 300kg plus. These heifers are bred and grown on forest country and i believe would make excellent long term future breeders. Please note these heifers are located in a tick infested area and any costs associated with clearing will fall upon the buyer.
