Assessor Comments	A nice line of young PTIC Angus cows. Cows have been preg tested safely in calf to high class Palgrove Charolais bulls. At assessment 7 cows had weaned large calves of them, these cows represent the plainer condition lighter animals. Generally, the cows present in fresh store condition through to others that are carrying fair condition. Vendor has spared no expense purchasing Palgrove Charolais bulls and always produce top quality calves. Given the write opportunity these Cows should produce good quality calves in the future. Cows are good to handle both in the yards and in the crush.
