Handled With	Out of 37 heifers, only 4 showed slight restlessness in the crush. Otherwise, all are consistently quiet and calm in the yards and paddocks, demonstrating a gentle and manageable temperament that makes handling easy and stress-free. This calm nature reflects well on their breeding and suitability for a variety of farming environments. Dogs , On foot , Vehicles			
Notable Traits	Traits 5 Head small white patches on udder			
Assessor Comments	These Angus heifers are bred from the highly regarded Reiland Angus and Bongongo Angus herds, carrying the depth, softness and temperament both programs are known for. They are well-grown, structurally sound young females with strong maternal traits and the fertility expected from proven Angus genetics. All heifers have been preg-tested in calf to carefully selected low-birth-weight bulls, giving confidence in calving ease and ensuring a smooth start to their breeding life. Their joining program has been deliberately matched, with matings to both Bongongo and Reiland sires to maintain consistency in type, growth and reliability. These sires are chosen for balanced EBVs, calving ease and predictable performance, ensuring the calves on the way will be functional, market-relevant and true to the Angus breed. Quiet to handle and displaying excellent constitution, these heifers offer producers a dependable group of young breeders backed by generations of reputable Angus bloodlines. They are an ideal addition for herds seeking temperament, structure and long-term productivity.
