Assessor Comments	Quality Angus breeders in the prime of their lives. Glenruben Angus blood for over 25 years, these are large framed cows that have performed year in year out and are only being offered for sale due to larger numbers of heifers being retained within the herd and they are now surplus to requirements. These cows had their calves weaned off 2 weeks ago with the steer portion averaging 326kg and were highly sort after at NVLX store market. Quality breeders from a highly noted herd that are in the prime of their breeding lives ideal cows to add to an existing herd. The Klemm family are offering a total of 52 5-7 year old Angus cows in todays sale over 3 lots in their age groups.
