These heifers are being offered for sale due to being surplus to requirements. The "Blue Springs" Angus heifers are sired by Birchgrove Angus & Blue Springs AI sired bulls. They are 22-23 months of age. PTIC to AI sons of Landfall Keystone. The bulls used in the "Blue Springs" herd are selected for Docility calving ease & high 400 day weights. Heifers present in ideal calving condition & weighing in at 551kg at assessment, showing their potential to grow into very large framed cows. They were PTIC back in March, visually these heifers are all starting to soften down and wont keep you waiting long for calves to start hitting the ground.
