	Unfortunately not the greatest conditions to assess these animals in with the yards still being quite wet & muddy after the recent rainfall. These animals were fine to draft & separate, but became slightly agitated when taken away from their calves (which is to be expected). Did not enjoy standing on our portable weigh platforms, very foreign to the idea. Once ran back through to trim tails etc etc, they were fine after the weigh platforms had been removed.

Assessor Comments	Spring Valley Rural are offering a nice line of Angus Cows & Calves that were purchased as PTIC females from the local area. This consignment consists of 2 x Angus Heifers with their 1st CAF & 7 x Angus Cows with their 4th CAF. Presenting in a tremendous condition with an exceptional weight for age these females are a large robust animal that will be a welcomed addition to an existing program or a nice little starter package. They are doing a fantastic job on their offspring with some exceptional weights and averaging 165kg. Not rejoined allowing the successful purchaser to align with whatever program they so desire.
