	These heifers were great to handle in the yards and in the paddock. A couple of heifers were agitated in the crush. Heavy rain and mud on the day didn't help. There was only 1 heifer that was slightly agitated, settled when back in the paddock. There is 1 heifer with slightly pink eye scarring not detrimental. These cattle are solid proper heifers with some grunt and handling them in the paddocks is a breeze and in the yards they flow well. Experienced cattle people will find them great to handle.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Jarrahwood has been breeding Hereford Cattle for over 40 years and these heifers compare to some of their best they have prepared. Deep Colored Hereford Females with all their lives ahead of them, due to commence calving shortly. Only one heifer with slight pink eye scarring, not detrimental. Their bulls are always fresh and fertile with Stud Breeding so joining was tight and this will show in the calving. They are well bred Herefords that won't disappoint.
