Comment on Fat Score 1 Cattle Almost all Score 1 cows and range in store to backward store condition. Would anticipate these cows suitable to travel short to medium distances without a spell. Cows appear strong and every effort will be made to have them qualify to meet all FIT TO LOAD parameters. Transport operator to inspect cattle prior to loading.

Vendor Bred Yes
 Stock History A mix of vendor bred cows and purchased cows mainly from the New England area of NSW from 2020 through to 2022.
 Lifetime Traceable Unknown

Grazing Conditions Been running in forestry type country on a very dry coverage of native summer grasses with just a light cover of winter herbages from recent rainfall. Vendor has only seen 125mm for the year so far. Currently being supplemented with Anipro. Returned to: Will run in a paddock with similar grazing conditions.

Burr/Seed in Coat None noticed but in the past there has been Noogoora burr in winter coats/tail brush.

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives
 Chemical Residue Clear - No known history

Vendor Comments Only selling due to the very dry seasonal conditions prevailing at present. All in calf to Glenisa Angus, a son of an Alamy Creek Angus bull. Also, AI sons of US bulls Musgrave Exclusive & Sydgen Enhance.

Joining Details Station Mated bulls put in: 01/10/2025 bulls taken out: 15/03/2026 (166 days)

	Bull Breed(s): Angus		
	To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.		
Preg Tested?	Yes, this lot was pregnancy tested, by Louis Johnston (Border Vet Surgery Goondiwindi) (Vet, NCPD ID: 1034) on 25/06/2026.		
	23 Head (100%) PTIC, from 3 to 6 months (at time of assessment 29/06/2026). Certificate Available.		
Pregnancy Terms	No Pregnancy Terms apply.		
Other Joining Details	Vet declared there are 12 (over 4 months in calf) and 11 (under 4 months in calf).		
	Store Condition		
	Store	83%	
	Bck Store	17%	
Temperament	Yards	Crush	Paddock
	Quiet: 23 head	Quiet: 22 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Cows were very quiet to handle in all areas of the yards. There was 1 cow that did resent being in the crush but settled once she found the balance of the mob. These had been pregnancy tested last week so that could explain her behavior.		
Handled With	Bikes		
Notable Traits	Traits 2 Head Cloudy blue eye (photo attached)		
Assessor Comments	Buyers, here is a deck load of predominantly medium to large frame Angus PTIC cows that present in mainly store to backward store condition. These have had big weaners removed from them in the past couple of months so obviously with them running in forest type country they have become very plain in condition. That being said though, they do have the capacity with the weaners now off them to really gain weight reasonably quickly if they are exposed to improved grazing conditions, either crop or winter herbage. Cows were not mouthed due to inadequate safe handling facilities available however they are still only 4-7 years old so still should be sound. Vendor will fill cows up full of hay and get them off water before transportation in an effort to have them travel well. We all know what the cattle market is doing so here is a chance to polish them up, let them calve out and either retain or turnover. On this property in this sale there are four lots being offered to allow buyers the opportunity to fill truck lots.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366		
Delivery Period	07/07/2026 to 07/07/2026 (1 day)
