	Very well handled cattle. Weaners from Brown Mountain Angus are yard weaned onto hay for 10 days and then walked/educated through yards for 4 weeks after weaning. Cows were a pleasure to assess and move through yards quietly.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 2 Head White udder			
Assessor Comments	An excellent run of PTIC Angus cows out of the Brown Mountain herd. Cows have been yard weaned and well educated through the BMA weaning process. Brown Mountain Angus have a high focus on IMF, structure and docility with in a moderate framed cow. This line of cows are surplus to requirements with all coming directly out of the Brown Mountain Stud and were classed in but season won't allow retention of all. 9 cows are AI in calf to WWE22T2 with the balance in calf to BMA back up sires (attached). Cows are Greenhams Never Ever Accredited and present in forward condition, and would be a welcome addition to any Angus enterprise. Please note: Vendor also has 14 PTIC heifers in todays sale.
