Assessor Comments	An excellent run of PTIC Angus heifers out of the Brown Mountain herd. Heifers have been yard weaned and well educated through the weaning process. Brown Mountain Angus have a high focus on IMF, structure and docility with in a moderate framed cow. This line of heifers are surplus to requirements with all coming directly out of the Brown Mountain Stud and were classed in but season won't allow retention of all. Heifers are all joined to Rennylea V8 (+1.8 BW, +7.1 IMF) Heifers are Greenhams Never Ever Accredited and present in forward condition, and would be a welcome addition to any Angus enterprise. Please note: Vendor also has 18 PTIC cows in todays sale.
