	The cows handled very well at assessment and processed through race and scales with minimum fuss and in a calm & settled manner. Calves were also very good at assessment but were typical of calves just being calves with a few being difficult			
Handled With	On foot , Vehicles			
Assessor Comments	A small line of 14 vendor bred cows and 1 cow not vendor bred, This cow has always been part of the vendors breeding program but owned until recently by his neighbour. They are medium to large frame cows that present in generally forward store condition, They are used to being rotated through small paddocks on a regular basis and were very good to handle at assessment. The vendor is only offering them due to changing to all spring calving, although a fair spread in ages they present as structurally sound cows doing a great job of their calves, Ideal outfits for purchasers looking for quiet, sound & fertile cows in a potentially 3 for 1 package
