Notable Traits

	Traits
1 Head	One heifer in plainer condition has just weaned a calf

Assessor Comments: A quality line of 7 PTIC Angus Heifers, comprising 6 APR Registered females and 1 Base Registered female. The vendor is willing to remove the Base Registered heifer from the lot if required. These well-bred heifers represent an excellent opportunity to secure proven Angus genetics from cattle bred and raised in tick-infested country, demonstrating their adaptability and resilience under northern conditions. The heifers are by leading Angus sires including Millah Murrah Paratrooper, Texas Powerplay and Te Mania Qontemplate, and are all PTIC to MURDEDUKE PHEASANTRY T298. Displaying good structure, femininity and breed character, these females are suitable for stud or commercial breeding operations alike. An outstanding opportunity for new stud entrants looking to establish a quality foundation herd, or for existing breeders seeking to add proven genetics and future breeding potential to their program.
