Assessor Comments: A B-Double load of EU cows off the renowned Bolaro Station. Bolaro have been using Rennylea Angus genetics for 10 years with a focus on growth and IMF, targeting Rangers Valley feedlot and other repeat buyers. These are well bred younger cows presenting in store condition but will respond well to crop and feeders if given the chance. Cows are EU & MSA. This lot of PTE have been run hard recently due to the vendor trying to preserve feed for their 'in calf' cows. Were joined but have preg tested empty due to harsh season over last Spring/Summer and joining pressure. Please note: 126 Weaner Steers in todays sale also. Also, 4 heavier cows in photos and videos to be removed prior to loading (not included in weights).
