Assessor Comments	This lot of 22 PTIC heifers is the last of the Talgarno Park Hereford females. With over 70 years of breeding behind them. If your looking for Quality Hereford breeders here they are. The Talgarno Park steers are annually sold in the Blue Ribbon weaner sales and have topped the sales on multiple occasions. With the herd classed annually for type, structure and milking. These 2024 drop maiden heifers are PTIC to Temania & Reiland Angus bulls. To commence calving July for 10 weeks. These heifers crossed the scales at 557kg after a curfew and have a 100% docile temperament giving no problems through the yards or through the crush. The Elliot family have sourced their bulls from the White Faced Sale in Wodonga in recent years, with a strong emphasis put on the type and quality of the bull. Current bulls are from Yarawa South, Warrick Court & Grathlyn Herefords with bulls used from notable breeders over the years including Began Hills, Glen Ellerslie, Emu Holes, Hillcrest & their own Talgarno Park bred bulls. Heifers are all sired by poll bulls and were de-budded at marking 3 heifers noted with some horn regrowth but would be better described as scur.
