Assessor Comments	Due to the on going dry period in the Upper Hunter these cows are being offered for sale. These cows present in strong condition and are well bred. The BDN herd produces highly sort after F1 feeders over the recent years, with the progeny going to repeat customers with positive feedback. These cows are well bred selected purposely for the F1 market. Majority of these young cows have just had their first and second calves weaned off them and have their whole breeding lives in front of them. Odd cow noted with a blue eye from old pink eye scarring.
