Vendor Comments

This is a very regretful sale as these heifers are a lovely line of future breeders. two cuts have come out of these heifers prior to now. These represent the top 30% of our heifers, not culls!!

Joining Details

Station Mated bulls put in: 02/09/2025 bulls taken out: 23/09/2025 (22 days)

Bull Breed(s): Angus

Access to Bulls or Stags outside Joining Period: 7 heifers running with these heifers have calved outside the dates stated in this assessment and were removed prior to assessment. Vendor is unaware of any other heifers that may calve early. Visually there doesn't look to be anymore. No guarantees.

Assessor Comments	This is a great line of PTIC heifers that don't see the open market often. These would not have been offered for sale except for the prevailing poor season. They are well bred large framed Angus heifers. Highly recommended. The following bloodlines are used with in the Weemabah herd, Moogenilla, Trio and Choice Angus. The pictures and video demonstrate the quality of the heifers. To calve over a 3 week period!! Heifers come highly recommended and will not disappoint. These heifers were selected to be held back for when the season broke but it hasn't so they are the next to go. A top quality line of Angus heifers that would suit any front paddock. At assessment heifers had a weight range of 405-545kg to avg 490kg.
