Assessor Comments	Offering 209 F1 Wagyu/Angus Heifers and Calves. These young heifers are in good condition on their first calf averaging 406kg live at assessment. The calves are all sired by Angus Bulls and weighed from 44kg to 170kg to average 101kg. The heifers were originally bred on Isis Downs through the CPC program and were purchased as PTIC heifers in November 2025. The heifers handled well in the yards and are a nice line of young females that have calved out well and holding condition. Overall a handy line of heifers and calves that will reward the purchaser with a handy Angus Cross weaner in a few months and trade on or rejoin. Please note at assessment 1 was sighted with a damaged ear from an old injury, 9 sighted with fly rub and 10 with some old blight scarring.
