Assessor Comments	Good quality line of PTIC Angus cows in the prime of their lives. Best described as solid medium frame with approx 30% pushing larger frame types. Cows are soft easy doing types and have really started to perform with the change to the season. Offered for genuine sale to wind up cattle operation as property is now leased. Expected to calved early September. Cows are calm and were good to handle and were originally purchased from Kerin Ag at Yeoval as part of a large run of PTIC AI'd heifers.
