Quiet: 44 head Slightly Stirry: 4 head	Quiet: 42 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Heifers were good to draft and handle throughout the yards. Also very easy in the paddock as vendors put a lot of time into handling their stock with dogs and bikes.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	48 vendor bred Angus heifers PTIC to LBW Eaglehawk Angus bulls. These heifers were the lead draft of the vendors mob and joined with the intention to retain as breeders but are now surplus to requirements. With a tight calving window they have only been joined for 7 weeks for fertility and calving management purposes. They have been running on improved native pasture presenting as forward mature heifers in the right calving condition. These heifers are 20 months old and are blocky mature type that will grown into moderate frame, honest and reliable Angus cows. Vendors have put plenty of time into educating and handling heifers throughout the yards and paddock which is highlighted through their quiet temperament. These heifers would be a good addition to most mobs and are a great opportunity to add quality PTIC heifers to your herd in this booming season. Buy with confidence.
