Assessor Comments	An excellent line of limo/angus heifers with there first calves at foot. Heifers present in forward store condition and are doing a terrific job on their calves. They have been rejoined to a Flemington Apricot limo bull since the 15th of May and will remain with heifers until delivery. Calves are sired by a Spry's Angus heifer bull and are powering ahead. Calves were all weighed between 115kg-163kg to average 139kg as a group. These young cows have been classed in and represent an excellent opportunity to acquire excellent breeders for years to come. Any further information please don't hesitate to call.
