	Quiet: 30 head	Quiet: 29 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Cattle always handled in a calm manner using Low stress practises. Easily brought up to the force & race by a single handler. All females led up the race and stepped on the scales without issue, all were caught in the head bale to be preg tested by the vet, despite this, all cows were exceptionally well behaved and could not be faulted, just one that showed a bit of anxiety, shifting about at first. All heifers led out of the yards sensibly for photographing, and were relaxed and well mannered.		
Handled With	Bikes , Low Stress Stock Handling© practices (January 2014) , On foot , Vehicles		
Notable Traits	Traits 4 Head Minor Eye Blemish >80% vision 7 Head White splash on flank		
Assessor Comments	**60 PTIC 2nd calvers - ROTG** Very nice line of young Breeding females. All calved unassisted last year and did an excellent job with their calves. Unfortunately their sale has been brought on now due to a bull break down and being out of sync with the rest of the herd. Out of moderate framed cows, bred for fertility, structure & longevity. Cows with good shape, length & maternal attributes. Carrying years of Dunoon Angus genetics, with the more recent introduction of Ardrossan. Always maintaining a strong focus on high growth figures, positive marble & maternal traits - particularly calving ease & birthweight. A very good line of proven, easy breeders with their lives in front of them and the risk of maiden calving behind them!
