| Temperament | Yards: Quiet: 15 head<br>Crush: Quiet: 14 head; Slightly Stirry: 1 head<br>Paddock: Temperament not assessed in Paddock<br>Cattle always handled in a calm manner using Low stress practises. Easily brought up to the force & race by a single handler. All females led up the race and stepped on the scales without issue, all were caught in the head bale to be preg tested by the vet, despite this, all cows were exceptionally well behaved and could not be faulted, just one that showed a bit of anxiety, shifting about at first. All heifers led out of the yards sensibly for photographing, and were relaxed and well mannered. |

| Assessor Comments | Very nice line of young Breeding females. Out of moderate to large framed cows, bred for fertility, structure & longevity. These young breeders were part of the 'keeper heifer' draft, and are only offered for sale now due to conceiving in a later cycle & now being out of sync with the rest of the herd. Carrying years of Dunoon Angus genetics, with the more recent introduction of Ardrossan. Always maintaining a strong focus on high growth figures, positive marble & maternal traits - particularly calving ease & birthweight! |
