Cattle always handled in a calm manner using Low stress practises. Easily brought up to the force & race by a single handler. All females led up the race and stepped on the scales without issue, all were caught in the head bale to be preg tested by the vet, despite this, all cows were exceptionally well behaved and could not be faulted. All cows led out of the yards sensibly for photographing, and were relaxed and well mannered.

Assessor Comments	Very nice line of proven Breeders. Moderate to large framed, bred for fertility, structure & longevity, proving themselves year on year, always calving unassisted, and doing an excellent job with their calves, with the majority going to the feedlot at the 15-16 month mark. Carrying years of Dunoon Angus genetics, with the more recent introduction of Ardrossan. Always maintaining a strong focus on high growth figures, positive marble & maternal traits - particularly calving ease & birthweight. An ideal line of breeders with years of productivity in them.
