Handle were easy and flow nicely threw the yards

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A genuine opportunity to secure a complete herd dispersal of quality Angus females with February/March-born Angus calves at foot. The offering comprises 14 Angus cows and their 14 Angus calves, to be sold as 14x14 units. Included are 9 vendor-bred heifers with their first calves at foot by Murdeduke Angus sires, while the remaining cows are carrying their second calf and are bred from proven Weeran Angus genetics, originally sourced as weaner heifers. The herd presents as an outstanding potential 3-in-1 unit, having been rejoined on 26/04/2026, with bulls still running with the cows. No expense has been spared on sire selection, with Murdeduke Angus bulls consistently purchased from the top end of the draft, including bulls valued up to $32,000. Fertility is a standout feature, with the herd consistently calving within a tight 8-week joining period. Every cow and calf can be individually identified to each other, providing complete buyer confidence. Calves have been marked and vaccinated. The Angus progeny from this herd are always highly sought after and regularly feature in the Birregurra Weaner Sales, where they have established a strong reputation for quality and performance. Please note the vendor also offers an additional two lots in this complete herd dispersal.
Assessor	**James Breen (Level 2 Accredited)**
