Assessor Comments	Presented for sale is a line of 28 PTIC Murray Grey cows, mixed age, presenting in sound forward/store condition with good bone, frame and breed characteristics. Cows have been pregnancy tested in calf to a simmental and Angus bull, with 20 carrying calves under 4 months and 8 carrying calves over 4 months. An even, genuine breeder unit displaying good temperament and maternal traits, suitable for continued breeding operations. Cows show the capacity to rear quality progeny and would be a valuable addition to a commercial breeding herd. Please not in pictures cows with markets on shoulders and between the pins is a mark to identify pregnancy stage, as cows are 2-4 months pregnant.
