Assessor Comments	Buyers a quality line of 79 Droughtmaster & Charolais X PTIC Cows that are in the prime of their breeding life. Cows present in store to forward store condition and are best described as large frame overall. This line of cows ages range from 3 to 6 years of age with 64% being 3 & 4 yrs of age and the balance 5 & 6 yrs of age. Cows have been preg tested in calf to Charolais & Droughtmaster bulls 3 - 6 months by a vet with majority of cows having had a weaner pulled off them over the last 8 weeks. Vendor is only offering these for sale to tighten up their calving window as have enough breeders around them. A great line of quiet big frame cows that would be great replacement breeder or fatten & split article once calved out. At assessment there was 4 x cows with some old fly bite scarring around neck from the summer.
