Quality Grades		Store Condition	
Very Good	100%	Fwd Prime	30%
		Fwd Store	70%

Temperament	Yards	Crush	Paddock
	Quiet: 77 head Slightly Stirry: 6 head Stirry: 1 head	Quiet: 77 head Slightly Stirry: 6 head Stirry: 1 head	Temperament not assessed in Paddock

Whilst drafting the cattle they were quiet and easy to handle, majority of them were within 2-3 meters of distance. A couple of Heifers slightly moved around the crush, otherwise were very good to handle throughout the weighing process. Apart from one heifer that stirred up in the drafting and weighing

Handled With	Bikes , On foot , Vehicles

Notable Traits

	Traits
1 Head	pinkeye scar large

Assessor Comments	84 PTIC Angus & Black Baldie Heifers A quality line of 84 vendor-bred PTIC heifers comprising 67 Angus and 17 Angus/Angus X Hereford females. These heifers represent the vendor's normal replacement females and are only being offered for sale due to a change in farming direction. Bred from a long-established breeding program incorporating proven Eagle Hawk Angus and Innesdale Angus genetics, including Eagle Hawk Trapper R121, Innesdale Magnum S14 and Innesdale Premier S79, the heifers have been joined to Mawarra registered low birth weight Angus bulls, offering purchasers the opportunity to secure well-bred young females carrying strong maternal and calving-ease genetics. The heifers were quiet and easy to handle throughout the assessment process, reflecting the temperament and management behind this breeding program. They present in good condition and are carrying their first calves. Joined to Mawarra Angus bulls T247, T523, U212 and U267 from 20 October 2025 through to 15 December 2025, providing a compact 56-day joining period. Pregnancy testing confirms the heifers are safely in calf and due to commence calving from late July through to September 2026. A genuine line of quality PTIC heifers with strong Angus breeding, excellent temperament and the foundation genetics to become valuable breeding females in any commercial herd.
