	Heifers in general handled incredibly well through the assessment process and are true indication of the low stress stock handling approach being used in this program.			
Handled With	Bikes , Vehicles			
Assessor Comments	An even line of preg tested in calf heifers that are the tops of the later calving heifers. Heifers are calving from late September to late November. For the past 10 plus years GPC have been buying bulls from Banquet Angus and can be shown in the line of heifers with plenty of frame and depth of body to name a few key attributes of the draft. Joined back to Banquet P555 & R498 selected as heifer calving ease bulls. As video shows cattle are incredibly quiet and a pleasure to handle and ran through the assessment process extremely well.
