Assessor Comments	An excellent opportunity to get into award winning Wagyu genetics. These cows are bred from good Angus herds based in western Victoria and have been used to produce F1 wagyu/Angus progeny. This lot of cows are a run out of the gate of 36 cows. The calves inside these cows are sired by award winning Wagyu bulls that have produced progeny that have won gold in the recent Wagyu industry awards. All cows have been individually preg tested to calve from the 3rd of September through to the 31st of October. Niu River specialises in breeding Wagyu bulls that are proven performers in the Wagyu/Angus cross programs with their breeding being actively pursued by feedlots. Niu River can assist in marketing the progeny of these cows if intending purchasers need any assitance. Please note there is 3 other lots of cows on offer today for a total of 59 PTIC Angus females. Wagyu bulls are also available.
