Handled With	Bikes , Horses , On foot , Vehicles		
Assessor Comments	Full dispersal of the Langdown Park Pastoral Herd. A Genuine herd dispersal with the property sold. A Very neat line of U drop rising 3 year old PTIC Heifers, Wirruna Poll Hereford blood, bred from a well managed herd. Wirruna Poll Hereford bulls have been used extensively in the herd. Heifers are in calf to WNAT660 & WNAU584 to commence calving 25th of July for 9 weeks. These females have all proven their productivity, all successfully calving their first calf unassisted and then weaning that calf earlier this year. Quiet well handled heifers that were a pleasure to work with. All animal husbandry and management procedures on this herd have been carried out to a very high standard ensuring vaccines and drenches are always well up to date. There is 33 of the U drop heifers in total but are being sold split up into two lots of a 17 & 16 run out the gate. An Excellent opportunity to purchase females not usually offered to the market. These females are the result of the vendors extensive investment in quality genetics and breeding. Excellent quality young productive females ready to go out to work and become future herd matrons.		
Assessor	Josh Fenech (Level 2 Accredited)
