Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head Scaring x 2 eyes 2 Head Scarring 1 x eye 2 Head White Flank		
Assessor Comments	An excellent opportunity to secure a quality line of 18 PTIC cows, offered as part of the complete dispersal of the well-regarded "Palerang" cattle operation. Averaging 541kg, these 2019 & 2020 drop females, rising 6 and 7 years, are presenting in good condition and carry the attributes of productive breeding cattle with plenty of value ahead. These cows have consistently proven themselves as reliable breeders throughout previous joining programs and represent an ideal opportunity for producers looking to strengthen breeder numbers with quality commercial females. Having been running on improved pastures, the cows are displaying good condition, capacity and overall doing ability. A genuine line of cows from an established operation, carrying the type of maternal performance and breeding capability sought by commercial breeding enterprises. Suitable for producers looking to secure proven breeding females backed by sound herd management and long-term productivity. Please note: PTIC status of the cows falls one week outside AuctionsPlus PTIC terms, therefore cattle are listed under station mated status despite being PTIC.		
Assessor	Jacob Rayner (Level 1 Accredited)
