Assessor Comments	Genuine dispersal of commercial breeders. A good line of productive young cows displaying good bone and depth, with plenty of future breeding life ahead of them. PTIC joined to a registered Kilcock Santa bull and their progeny can be eligible for the "S" bar grading classification, adding further value for breeding and market options. This is a genuine article and opportunity to purchase young matrons that are in the prime of their breeding lives. Complete stud dispersal will be held in Spring. Buyers please note these cows are currently in a withholding period- refer to treatment details for more information.
