Assessor Comments	A good line of young, soft Angus/Brangus heifers PTIC to a Brangus bull, due to commence calving from mid July 2026. Originally purchased from Bell with the intention of being retained long-term in the breeding herd, these heifers are reluctantly offered for sale due to ongoing extreme drought conditions and failing water supplies. The heifers weighed from 350kg to 487kg, averaging 399.3kg at assessment, and are expected to respond exceptionally well to improved nutrition and seasonal conditions. Despite the tough environment they are currently experiencing, they continue to present very well and offer an excellent opportunity to secure future breeder replacements with strong maternal potential.																		
Assessor	Glen Curry (Level 1 Accredited)																		
Delivery Period	17/05/2026 to 22/05/2026 (6 days)																		
Delivery Point	749 Sandy Flat Road TENTERFIELD NSW 2372 Lat: -29.2862880004253 / Lng: 152.039685573308
